

BAUGH'S Raw Bone Meal. STRICTLY PURE.

This article is made from Bones which have NOT been steamed or baked.
We guarantee each bag free from tankage or any other adulteration.

Such an article requires no special endorsement, as every intelligent farmer recognizes the great value of **finely ground PURE bones.**

Estimated Commercial value per ton \$40.33 as per analysis (received by us March 25th 1885) from Pennsylvania Board of Agriculture.

Estimated Commercial value per ton, \$40.75 as per analysis No. 97 (issued Sept. 15th, 1886) by Ohio State Board of Agriculture.

Copy of an analysis of a sample of

BAUGH'S RAW BONE MEAL,

drawn by Mess. WM. A. MILLER & Co., Lynchburg, Va., and analyzed by DR. W. J. GASCOYNE, State Chemist :

MOISTURE, (det. at 100°)	6.47	per cent.
PHOSPHORIC ACID,	23.00	"
EQUAL TO BONE PHOSPHATE OF LIME,	50.25	"
NITROGEN,	3.74	"
EQUAL TO AMMONIA,	4.55	"

COMMONWEALTH OF VIRGINIA, DEPARTMENT OF AGRICULTURE.

Dr. W. J. GASCOYNE, Chemist.

Chemical Laboratory.

RICHMOND, VA., OCT. 9TH, 1886.

Analysis No. 1284.

The sample of PURE RAW BONE MEAL manufactured by BAUGH & SONS, PHILADELPHIA, marked No. 48, sampled at Purcellville, Va.;

CONTAINS :

MOISTURE, (det. at 100° C.)	4.16	per cent.
PHOSPHORIC ACID,	23.00	"
EQUIVALENT TO BONE PHOSPHATE OF LIME,	51.55	"
NITROGEN,	3.50	"
EQUIVALENT TO AMMONIA,	4.25	"

(Signed)

W. J. GASCOYNE, CHEMIST.

Our special facilities for producing this excellent fertilizer are such as to enable us to sell it so low that farmers have no longer an excuse for not using **RAW BONE MEAL** on account of the cost.

GUARANTEED ANALYSIS:

Ammonia, - - - 4 to 5 Per. Cent.
Phosphate of Lime, 47 to 51 "

BAUGH'S

Pure Dissolved Raw Bones,

Made from Pure Raw ANIMAL BONES and SULPHURIC ACID only.

Guaranteed Analysis :

AMMONIA, - - - - - 3 to 3½ Per Cent.
AVAILABLE PHOSPHORIC ACID, 10 to 12 "

The advantages of our Ready Dissolved Bones may be summed up as follows :

It is warranted to be composed of Pure Raw Bones and Oil of Vitriol only.—It contains no tankage, S. C. Rock, or other Mineral Guano of any kind—no steamed or burned bones, but is exactly what its name implies. This is warranted to every buyer.

It is completely dissolved.

It is dry and re-ground.

The price is much lower than the same article can be produced by the farmers.

It will beautifully mix with the other chemical ingredients which the farmer's formulæ prescribes.

It SAVES to the farmer the HEAVY SPECIAL RATE OF FREIGHT which is charged on Oil of Vitriol in carboys, the risk and trouble of working with acid, and the freight upon the empty carboys back to the city.

These and other advantages will be recognized by farmers of experience in the matter ; and all those who know us, will acknowledge the force and value of the legally binding guarantee we give with these Dissolved Bones.

MANUFACTURED BY

BAUGH & SONS COMPANY,

BALTIMORE, MD.

FOR WHEAT AND GRASS USE
BAUGH'S ❖ **ANIMAL** ❖ **BONE**
 —AND—
POTASH COMPOUND.

A Cheap and Reliable Manure for all Crops, Made from Pure Bone Base.

This article is composed chiefly of **Pure Dissolved Raw Bone and Potash**, and is a complete fertilizer for all crops, as well as a permanent improver of the soil, which is of great importance to farmers, especially land owners.

Where this article has been used on

Wheat, Rye & Grass

it has given such general satisfaction, that we think all who will use it on these crops will be more than satisfied with results.

WE GUARANTEE FOLLOWING ANALYSIS

AMMONIA,	2 to 2½ per cent.
AVAILABLE PHOS. ACID.	7 to 9 "
EQUAL TO AVAIL. BONE PHOS.	15 to 18 "
INSOLUBLE BONE PHOS.	7 to 9 "
ACTUAL POTASH,	2 to 3 "

We aim to have our Raw Bone Manures as near perfection as it is possible for our long experience and our chemists' skill to make them. We have our own perfectly equipped laboratory at the Delaware River Chemical Works and two chemists constantly employed there, working out scientific theories hand in hand with our practical knowledge gained by about fifty years on the farm and over thirty years as manufacturers of fertilizers.

There are no improvements or economy of manufacture suggested by science or accomplished through a long experience that we have not practiced in the production of cheap and reliable fertilizers.

BAUGH & SONS COMPANY,
 SOLE MANUFACTURERS.

BAUGH'S DOUBLE EAGLE PHOSPHATE

IS A CHEAP AND RELIABLE MANURE, MADE FROM SLAUGHTER HOUSE BONES.

By means of a process exclusively our own, and through special advantages in the supply of raw materials, we are furnishing this entirely reliable ANIMAL BONE super-phosphate for \$25 per ton, in new bags, delivered free on board car or boat at Baltimore.

FOUR DIFFERENT ANALYSES OF

BAUGH'S DOUBLE EAGLE PHOSPHATE. MADE IN 1886.

	Ammonia	Phosphoric Acid.			Potash	Commercial value pr. ton in Ohio.
		Available (Sol. & Rev.)	Insoluble.	Total		
Analyzed in Ohio, .	3.10	6.62	4.96	11.58	Not traced in Ohio.	28.76

Potash, (none claimed by manf'rs),				.45 “

Commercial Value per ton in Ohio, - \$30.99

BAUGH'S DOUBLE EAGLE PHOSPHATE is an entirely reliable Animal Bone Manure. It is sold at from \$5 to \$10 per ton less than similar articles of Animal Bone base. Baugh's Double Eagle Phosphate possesses the valuable elements of a high grade animal bone manure at a reduced price to the consumer. It is manufactured by a new process of perfect dissolving and assimilation, and the strictest in economy of work. These results, after a long experience in combined practical tests of farm, factory and laboratory, have accomplished what will prove an abiding good to the farm.

MANUFACTURED ONLY BY

BAUGH & SONS COMPANY,
239 SOUTH STREET, BALTIMORE.

Original Manufacturers of RAW BONE SUPER PHOSPHATE.

Combined Capacity of our Works, 75000 tons per year, and still increasing.
