Presenting to you this, our Glassware Catalogue for 1901, we take pleasure in calling your attention to the superior quality and finish of our wares and the originality of design. We ask you to give it your close inspection and keep it handy for future reference.

Your attention is called to the assortments which are packed up and kept in stock for the convenience of the trade. These are offered without extra charge.

Remember that we are exclusively manufacturers, and sell at manufacturers' prices. Our styles are up to the times, and we invite comparison of our prices with anything of the same quality offered you.

We are issuing but a limited number of Catalogues, and it will be impossible for us to replace those lost, and we will ask you to keep it, and add to the illustrations as they come out from time to time.

We call attention especially to the fact that our ware is first-class in quality, good weight, color and workmanship. We use natural gas for fuel exclusively, and thus avoid all clouded effects. To this fact we owe the special brightness of our ware. If you will try one order, we believe that the quality of our goods, combined with fair treatment, will induce you to become our regular customer.

Special attention given to mail orders.

Respectfully yours,

MOUNDSVILLE, W. VA., U. S. A.

FOSTORIA GLASS CO.

NO CHARGE FOR CARTAGE AT FACTORY.

ALL GOODS SOLD F. O. B. AT FACTORY.

BUYERS MUST PAY THEIR OWN FREIGHT.

BREAKAGE.—We will not be responsible for.

First.—Because the goods are fragile and are sometimes broken by accidental jolting or dropping.

Second.—We use the best possible care in packing, employing only skilled help.

Third.—The chief cause is rough handling after shipping.

Fourth.—We can only obtain correct shipping receipts from transportation companies when packages are "in good order" and contents NOT shaky, and they will only carry shipments that are "released at owners' risk of breakage." The dealer should, therefore, always add ordinary breakage to the cost of his goods, the same as he adds package and freight.

In opening barrels and casks, *always* remove hoops first, DO NOT DRIVE HEAD IN. Many goods may be broken in doing this.
