

Our Honor Roll

The following West Virginia University men are enlisted in some branch of military service. The rank, branch of service, and present address is given in so far as obtainable and in case the present address was not known the home address has been included after the name in parenthesis. Information is especially desired concerning these men. These names are to be printed in the University catalogue for this year and as complete a list as possible is desired for that purpose. Persons therefore, who can supply additional names or make corrections in those already printed are requested to communicate the same to Frank B. Lewellyn, Secretary Military Information Committee, West Virginia University, who is editor of this honor roll.

The Athenaeum published the honor roll of the University in the issue of December 15 with three hundred twenty-four names and since that time a large number of corrections have been made and over two hundred more names have been added to the list. On February 26, a special war edition (extra size) of The Athenaeum will be published with the revised honor roll and copies sent to all West Virginia University men in active military service whose addresses are known. All corrections should be returned before that time.

The University is making an effort through its Committee on Military Information recently appointed by President Trotter to keep in touch with the men now in active military service but on account of the numerous promotions and the frequent changes of address, it necessarily happens that a number of the letters sent out to the camps are returned unclaimed. Men in the service and their friends are urged to read the list printed below and report any changes that should be made.

The Athenaeum this week is sent to all the men in the service through the courtesy of the Alumni War Committee.

ABBREVIATIONS.

- A. E. F.—American Expeditionary Force, now in France.
- C. A.—Coast Artillery.
- F. A.—Field Artillery.
